

I urge you, the FCC, to reject the NAB's Petition #04-160.  
XM Radio provides a very valuable pay service to myself and other listeners.  
Local Traffic and weather allows drivers in major markets to receive traffic and  
weather updates 24 hours a day, without other interruptions. As a business  
traveler, I rely on this service when I travel and have found it to be much more  
informative and useful than that of local broadcasters.

Please help to support our first amendment rights of the listeners and  
shareholders of XM radio.

Please reject the NAB's Petition 04-160.
